

PORTLAND BOLLARDS

Made By Portland Stone Ware

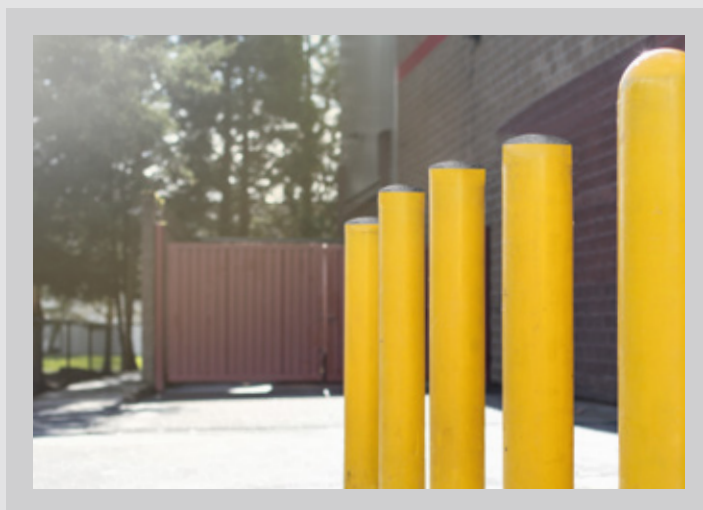

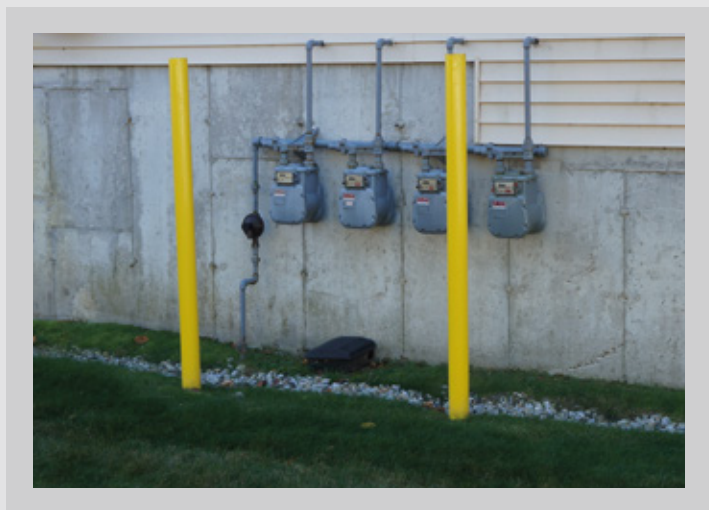

Providing **protection**
and **safety** where
it matters

Bollards are visible barriers used to protect valuable areas.

Benefits of Portland Bollards

- » Portland Bollards are filled with 3000 psi concrete and finished with a rounded top.
- » Easily installed in any weather condition.
- » The yellow powder coated bollards are ideal for safety concerns and eliminate the need for expensive covers.
- » Yellow powder coated bollards provide a durable and long-lasting finish.
- » Gray painted bollards are a cost-effective option.

Bollards Protect Utilities & Infrastructure
